Texas Primary Reading Inventory (TPRI) Class Summary Form

Testing + Data Entry Window is
Aug 17th - Sept 17th

First Grade

BoY - Beginning of Year - for 2004-2005

Date:_____

Teacher: _____

Campus: _____

NOTE: Enter the acutal number correct.
Do Not enter in a value of 'D' or 'SD'.

	Screening			Phonemic Awareness				Graphophonemic Knowledge						Reading Comprehension					
Student Name	Screen 1 - Letter Sound	Screen 2 - Word Reading	Screen 3 - Blending Phonemes	Blending Word Parts	Blending Phonemes	Detecting Initial Sounds	Detecting Final Sounds	Initial Consonant Sub.	Final Consonant Sub.	Middle Vowel Sub.	Initial Blending Sub.	Blends in Final Position	Word List	Story Number	Story - % Accuracy **	Story - Fluency (WPM)	Story - Explicit	Story - Implicit	Story - Total = Exp. + Imp.
	S1	S2	S3	T1	T2	T3	T4	T5	T6	T7	T8	T9	T10	S#	SA	SF	SE	SI	ST
Example: Johnny Smith	**7**	**2**	**4**	**3**	0*	0*	0*	0*	0*	0*	0*	0*	**4**	**2**	**65**	**25**	**2**	**1**	**3**

** Percent (%) Accuracy is calucated using the following formula: (100) multiplied by (# of words read correctly) divded by (# of words in the whole story). In the Example above 50 words were read correctly out of 77 total words in Story 2, so 100 * 50 / 77 = 64.9 = ~ 65%. Now if the student only read 5 words correctly and you had to stop him or her, then you still apply the same formula to get 100 * 5 / 77 = 6.49 = ~ 6%.

*** Input Zero's for Tasks "Skipped" if the student does *not* have enough correct. -See the "Example" above. Leave Tasks Blank if they are "Skipped" because the student passed all of the Screenings.**
